MATERIAL FACT

Log-In Announces Acquisition of Container Ship

Log-In - Logística Intermodal S.A. ("Log-In", "Company" - B3: LOGN3), pursuant to article 157, paragraph 4 of Law 6,404/76 and Instruction 358/02 of the Brazilian Securities and Exchange Commission, hereby announces that it entered into an agreement to purchase a container ship with GUANGZHOU WENCHONG SHIPYARD.

The ship, which has nominal capacity of 2,700 TEUs, is under construction in a shipyard located in the Wenchong district, China, and is expected to be completed by April 2019 when it will be included in Log-In's maritime fleet of cabotage cargo transportation, i.e. domestic transportation between Brazilian ports.

The amount invested in the construction of this ship totals approximately US\$28.5 million. Part of this amount will be financed through a facility line with the participation of a financial institution that promotes exports in China, as guarantor.

In addition to reinforcing Log-In's fleet renewal, the transaction preserves the Company's ability to provide its maritime cargo transportation services, by offering its customers a ship with operational excellence.

Therefore, Log-In continues with its strategy of restructuring its shipping assets, in view of the discontinuity of the ship construction project announced to the market on July 12, 2017. This acquisition confirms the Company's commitment to Brazilian cabotage, ensuring the continuity of services to the users of such an important transport modal for Brazil's most diverse market segments.
